Light & Service

**Imagine** an elephant in the air  
...hanging on a balloon!

**Imagine** ... each child being taught  
exclusively according to his/her own  
learning pattern!

**Imagine** ...a school where you can  
monitor your child's academic progress  
on-line everyday, anytime and anywhere!

**Imagine** ...a school that produces  
'a students' while others would rather  
choose them!

**Imagine** ...a wonderful schooling experience  
for a bright future.

Thames Valley College is a purpose-built co-educational international secondary school with full  
boarding facility, offering Nigerian/British Curriculum and located on a 30 acre spacious,  
serene and aristocratic environment, outside the hustle and bustle of the surrounding towns and cities.

*... the unique face of education in Nigeria.*

## Vision

To provide Global Standard Education in an International Environment

## Mission

Thames Valley College prepares children for the present and the future through a balanced, wide ranging and challenging curriculum that develops skills and personal attributes, which will enable them to become honourable, responsible, disciplined leaders of their own communities, their country and the world at large.

# About the School

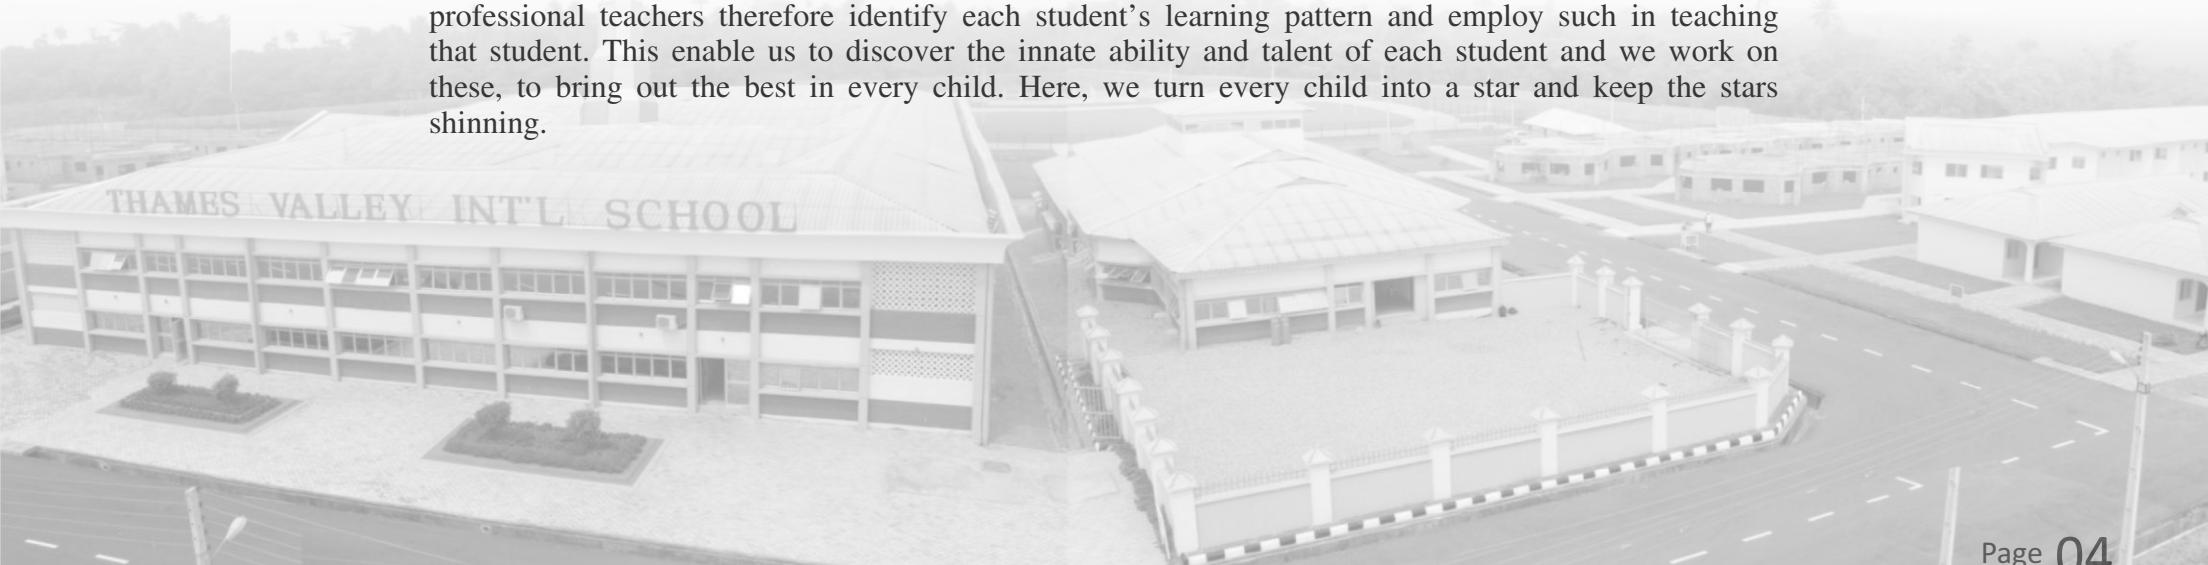

## **Our World... all yours to explore**

Thames Valley College is a purpose built 21st Century International School set up to inspire and groom the children to face the challenges of the changing world and prepare them to successfully adapt, wherever they find themselves in future. Through careful and extensive research, we have put together all that they require to succeed and take charge in this fast changing world.

Thames Valley College is a co-educational college with full boarding facilities and offers a unique blend of Nigeria/British curricula. This citadel of academic excellence is located on a 30 acre spacious and serene environment far away from the “maddening crowd” in cities and towns. This beautiful and peaceful environment affords our children the opportunity to learn in a most conducive environment.

## **Our Philosophy...our guiding light**

At Thames Valley College, we believe every child is different and unique; our experienced and highly professional teachers therefore identify each student's learning pattern and employ such in teaching that student. This enable us to discover the innate ability and talent of each student and we work on these, to bring out the best in every child. Here, we turn every child into a star and keep the stars shinning.

The principal addressing the students on assembly in one of our amphitheaters.

Our amphitheatres are designed and equipped to accommodate 100 persons each, with WiFi system that allow all to just “plug & play” their devices, to participate in lectures.

Our classrooms are usually arranged to ensure desired interaction between the teacher and the students.

A practical session in the Physics Laboratory.

A titration practical lesson/ class in the Chemistry Laboratory.

A demonstration lesson on skeletal systems  
in the Biology laboratory.

An activity class in the  
Home Economics Laboratory.

A wood-work practical class in  
the Basic Tech laboratory.

Awakening the creative skills of the students  
in the Fine Art Studio.

The making of young musicians.

Students learning in our fully equipped state of the art computer laboratory.

Students and staff members enjoying our sumptuous meal during lunch.

Safety is not just the consideration;  
our students also travel in style and comfort.

Our students are 4 in an en suite room in the boys and girls houses designed to aid learning in an atmosphere of care and comfort.

The girls relaxing in the girls' house.

The boys relaxing in the boys' house.

Prep in our library and e- learning resource centre.

A basket ball practice at the sports complex.

A soccer training session in the sports complex.

Our professionally certified and experienced nurse attending to a student in our fully equipped college clinic.

The principal's residence strategically positioned  
to provide a view of the key locations of the college.

An Aerial view of our college community.

Our Multi-purpose Hall is modelled to host a variety of formal functions for our students.
